

RESOLUTION NO. 1 - 2003

WHEREAS, it has come to the attention of the Roann Town Board that several of the citizens want to remove, trim or otherwise maintain trees originally planted in the tree lawn along the local streets; and

WHEREAS, it has been determined through the passage of time that it is best to let the individual property owners maintain their properties which would include any trees that exist on the tree lawns; and

WHEREAS, it would be an undue financial burden upon the Town to try and maintain each of the trees or remove the same which may not be the desire of the property owner; and

IT IS HEREBY RESOLVED as follows:

The trees which were planted and currently exist along the tree lawns in the corporate limits of the Town of Roann shall be considered the property of the land owner and no longer considered the property of the Town of Roann. Individual property owners may remove, trim, sell, replant or otherwise care for those trees and any other vegetation that may exist upon their parcel as they deem suitable and in accordance with Indiana law and any and all other local ordinances. The Town of Roann accepts no responsibility for the use or removal of the trees or other vegetation located on the local property owner's property and they shall be considered and recognized as the property of the property owner.

Dated this 9th day of December, 2003.
